Bear Creek Road paving project starts this week in Boyd County
Expect traffic impacts between KY 3 and county line

FLEMINGSBURG, Ky. – A Kentucky Transportation Cabinet project to improve nearly seven miles of Bear Creek Road (KY 1937) in Boyd County starts this week.

The work, being done by Mountain Enterprises Inc. under two low-bid contracts totaling \$388,334.26, will include asphalt resurfacing of Bear Creek Road from KY 3 at Mavity to the Lawrence County line.

Crews will install signs and begin pre-paving work Wednesday, Sept. 28, with full paving operations expected to start Friday, Sept. 30, and continue through mid-October.

Throughout the project, one lane of Bear Creek Road will be closed in areas where crews are working – approximately 7 a.m. to 6 p.m. each day. Motorists will be directed through work zones by flaggers, and should expect delays. All lanes will reopen at night, although travel may be on rough surfaces at times.

Motorists are advised to slow down, “Drive Smart” in work zones and remain aware of workers and construction equipment at all times.
